

Blue Capital Reinsurance Holdings Ltd. (BCRH)

Investor Update

4Q17

Safe Harbor Statement

Some of the statements in this presentation may include, and Blue Capital Reinsurance Holdings Ltd. (the “Company” or “BCRH”) and the Company’s manager, Blue Capital Management Ltd. (“Blue Capital”), may make related oral forward-looking statements which reflect our current views with respect to future events and financial performance. Such statements may include forward-looking statements both with respect to us in general and the insurance and reinsurance sectors specifically, both as to underwriting and investment matters. Statements that include the words “should,” “would,” “expect,” “estimates,” “intend,” “plan,” “believe,” “project,” “target,” “anticipate,” “seek,” “will,” “deliver,” and similar statements of a future or forward-looking nature identify forward-looking statements in this presentation for purposes of the U.S. federal securities laws or otherwise. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the Private Securities Litigation Reform Act of 1995.

All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or may be important factors that could cause actual results to differ materially from those indicated in the forward-looking statements. These factors include, but are not limited to, the effects of competitors’ pricing policies, greater frequency or severity of claims and loss activity, changes in market conditions, decreased demand for property and casualty reinsurance, changes in the availability, cost or quality of reinsurance or retrocessional coverage, our inability to renew business previously underwritten or acquired, uncertainties in our reserving process, changes to our tax status, reduced acceptance of our existing or new products and services, a loss of business from and credit risk related to our broker counterparties, assessments for high risk or otherwise uninsured individuals, possible terrorism or the outbreak of war, a loss of key personnel, political conditions, changes in insurance regulation, operational risk, including the risk of fraud and errors and omissions, as well as technology breaches or failure, changes in accounting policies, our investment performance, the valuation of our invested assets, a breach of our investment guidelines, a breach in our underwriting guidelines, potential treatment of us as an investment company or a passive foreign investment company for purposes of U.S. securities laws or U.S. federal taxation, respectively, our dependence as a holding company upon dividends or distributions from our operating subsidiaries, the unavailability of capital in the future, developments in the world’s financial and capital markets and our access to such markets, government intervention in the insurance and reinsurance industry, illiquidity in the credit markets, changes in general economic conditions and other factors described in our Annual Report on Form 10-K for the year ended December 31, 2016.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the risk factors included in the Company’s most recent Annual Report on Form 10-K and other documents on file with the Securities and Exchange Commission. Any forward-looking statements made in this presentation are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company or its business or operations. Except as required by law, the Company undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

Regulation G Disclaimer

In this presentation, management has included and discussed certain non-GAAP measures. Management believes that these non-GAAP measures, which may be defined differently by other companies, better explain the Company’s results of operations in a manner that allows for a more complete understanding of the underlying trends in the Company’s business. However, these measures should not be viewed as a substitute for those determined in accordance with GAAP.

Blue Capital Reinsurance Holdings Ltd. Overview

About Blue Capital Reinsurance Holdings (“BCRH”)

- A Bermuda based specialist reinsurance holding company listed on the NYSE since November 2013 (ticker “BCRH”)
- Exclusive focus on reinsurance exposures, providing investors with return profile largely uncorrelated to financial markets
 - Well diversified exposure risk profile across insurance clients, global markets and geographies
 - Unique access to traditional and collateralized reinsurance markets to build portfolio with attractive risk adjusted returns
 - Limited financial market exposure as collateral held in cash equivalent investments
- Target return on common equity of 800 bps over the three-month U.S. Treasury yield per annum¹ with target dividend and share repurchase distribution of 90% of annual distributable income
- Managed by Blue Capital Management Ltd., a specialist alternative investment manager focused exclusively on the reinsurance risk class.
- 2017 results were significantly impacted by Hurricanes Harvey, Irma and Maria and California wildfires
- Achieved growth of book value per share inclusive of dividends in excess of 7.5% in three out of four years
- \$127.1 million of shareholder’s equity as of December 31, 2017
- Blue Capital Management Ltd. is a wholly owned subsidiary of Sompo International, a leading global insurer and reinsurer.
- Sompo International holds a 33% strategic investment in BCRH, provides infrastructure and underwriting support services and is a significant source of business and market access for BCRH.

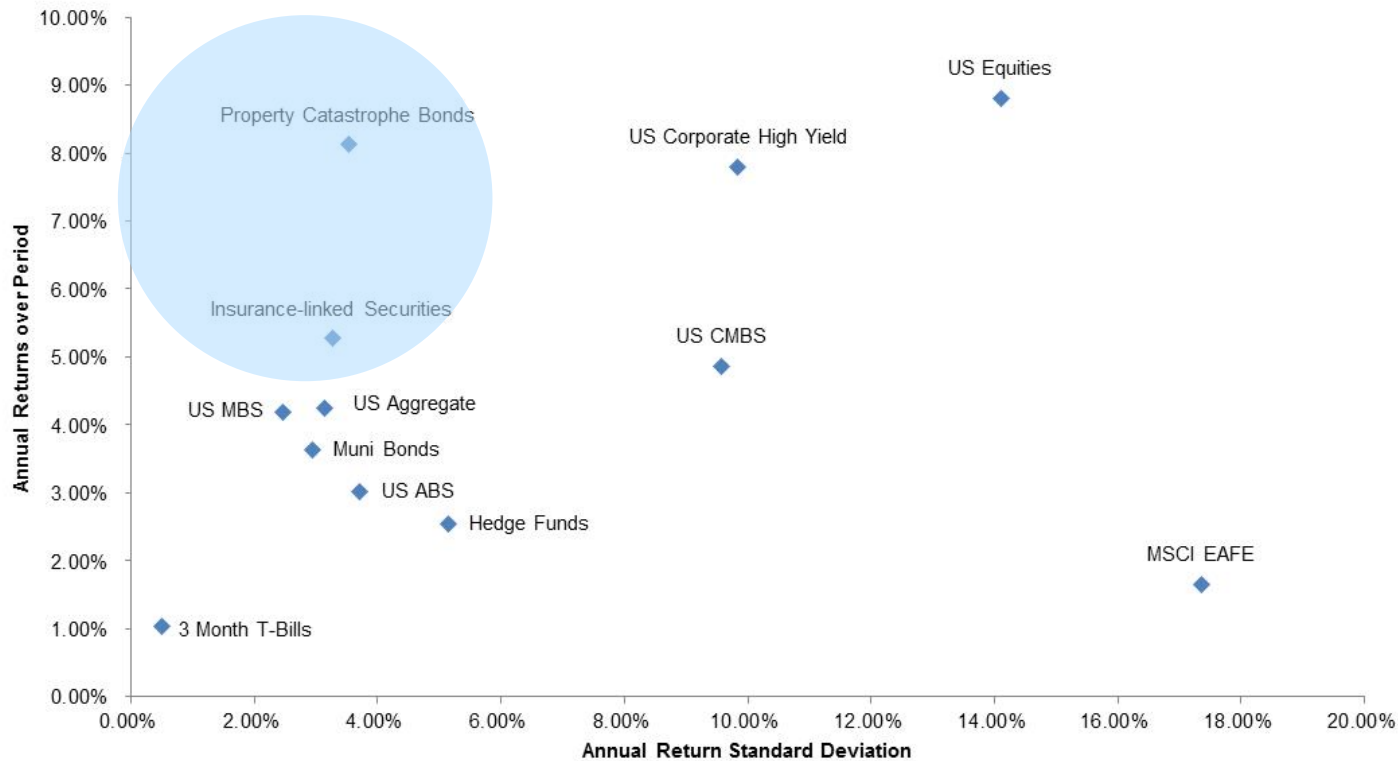

BCRH’s Financial Highlights

Strategic Support from Lead Investor

¹The target net return referenced above is a forward-looking statement that involves risks and uncertainties. Accordingly, there are or may be important factors that could cause actual returns to differ materially from the target net return. Realization of the target net return is dependent upon, (i) the portfolio of risks that BCRH constructs, (ii) the pricing BCRH is able to attain for the risks underwritten, (iii) BCRH’s investment return, (iv) the efficacy of the proprietary catastrophe modeling tools utilized by BCRH in estimating claims activity, (v) the claims activity BCRH actually experiences and (vi) BCRH’s ongoing corporate expenses. For a listing of risks related to BCRH and its future performance, please see “Risk Factors” in BCRH’s most recent Annual Report on Form 10-K.

Attractive Market With Appropriate Risk/Reward Dynamics

Global Index Return vs. Volatility (December 2005 – December 2017)^{1,2}

- Returns directionally uncorrelated to other asset classes
- Volatility is manageable and diversifiable
- Sizeable and structured market

BCRH Has Attractive Yield and Earnings Distribution History

Fully Converted Book Value Per Common Share

From December 31, 2013 – December 31, 2017

Attractive Dividend Yields¹

From December 31, 2013 – December 31, 2017

	2014	2015	2016	2017
Beg. Stock Price \$	18.37	\$ 17.75	\$ 17.15	\$ 18.45
Dividends Paid \$	0.90	\$ 1.56	\$ 2.14	\$ 1.49
Dividend Yield	4.9%	8.8%	12.5%	8.1%

- The company intends to distribute through dividends or share repurchases a minimum of 90% of its annual distributable income
- Dividends have historically included recurring dividends of \$0.30 for the first three quarters of the year and a special dividend paid in the first quarter of the following year
- BCRH paid a special dividend of \$0.59 on March 15, 2017 and paid regular dividends of \$0.30 each on April 12, 2017, July 14, 2017 and October 12, 2017
- 2017 results were impacted by one of the worst catastrophe loss years the insurance industry has experienced

1. Dividend yield calculated by dividing dividends paid during the year by the beginning of the year share price.

▪ **Leveraging the strength and expertise of Sompo International**

- Sompo International has a successful multi-year track record in global insurance and reinsurance
- Strategic relationship with Sompo International provides BCRH access to Sompo International's expansive global footprint, staffing, and distribution and well diversified global portfolio
- Financial strength and market presence of Sompo International (previously Endurance Specialty Holdings Ltd.) was strengthened following acquisition by Sompo Holdings, Inc.

▪ **Specialized underwriting and portfolio construction provides differentiated opportunity**

- Seasoned underwriting teams leveraging sophisticated risk management and proprietary pricing and portfolio management system
- Returns are generated from the construction of a portfolio of traditional reinsurance contracts not normally available to investors
- BCRH underwriting team combines quota share from Sompo International's portfolio with direct written contracts to achieve target portfolio returns

▪ **Minimal underlying investment asset risk**

- Invested collateral is cash or cash equivalent securities held in custody by Bank of New York Mellon
- Portfolio returns predominantly generated from reinsurance premiums

What Differentiates BCRH from a Traditional Reinsurer?

	Blue Capital Reinsurance Holdings Ltd.	Traditional Reinsurer
Business Focus	Collateralized reinsurance	Diversified portfolio of short-tail and long-tail reinsurance and other specialty insurance and reinsurance lines
Security Offered Clients	Cash collateral, no leverage	“Promise to Pay” backed by financial strength ratings
Capital Management Policy	Target minimum dividends and/or share repurchases of 90% of distributable income	Low single-digit dividend yield (typically 1-3%)
Risk Profile	Primarily natural catastrophe risks, predefined single event exposures	Multitude of different risks including catastrophe risks, other frequency and severity insurance risks, interest rate, credit risk, equity risk, long-tail reserve risk, capital management, etc.
Investment Profile	Cash and cash equivalents, minimal investment risk and volatility	Portfolio of fixed income, equity and hedge fund investments with interest rate, credit and market risk

BCRH is a “pure play” reinsurance alternative investment, which has paid out at least 90% of its distributable income for 2014 through 2017

BCRH's Performance Related to 2017 Events

- **BCRH's 2017 losses were within expected levels given the magnitude of the events**
 - **Hurricane Harvey** \$6.0 million in estimated losses
 - **Hurricane Irma** \$29.0 million in estimated losses
 - **Hurricane Maria** \$3.7 million in estimated losses
 - 2nd event/Aggregate losses triggered by multiple events estimated losses of \$21.2 million
 - **California wildfires** \$2.5 million in estimated losses
 - \$8.0 million in estimated losses from smaller events and attritional losses

- **Our 2017 book value per share decline was 23.6% driven by these events**

- **Majority of current capital base expected to be available for upcoming renewals:**
 - In addition to estimated losses that have already reduced shareholders equity, estimated contractual buffer loss provisions are expected to lock up approximately 13% of projected shareholders' equity at January 1, 2018 renewals¹. These lockups are projected to be released systematically through the course of 2018 and 2019.

¹The Company's actual contractual buffer loss provisions may ultimately differ materially from estimated contractual buffer loss provisions due to the underlying nature of the risks assumed, the complexity of the assessment of damages and the limited number of reported claims received to date.

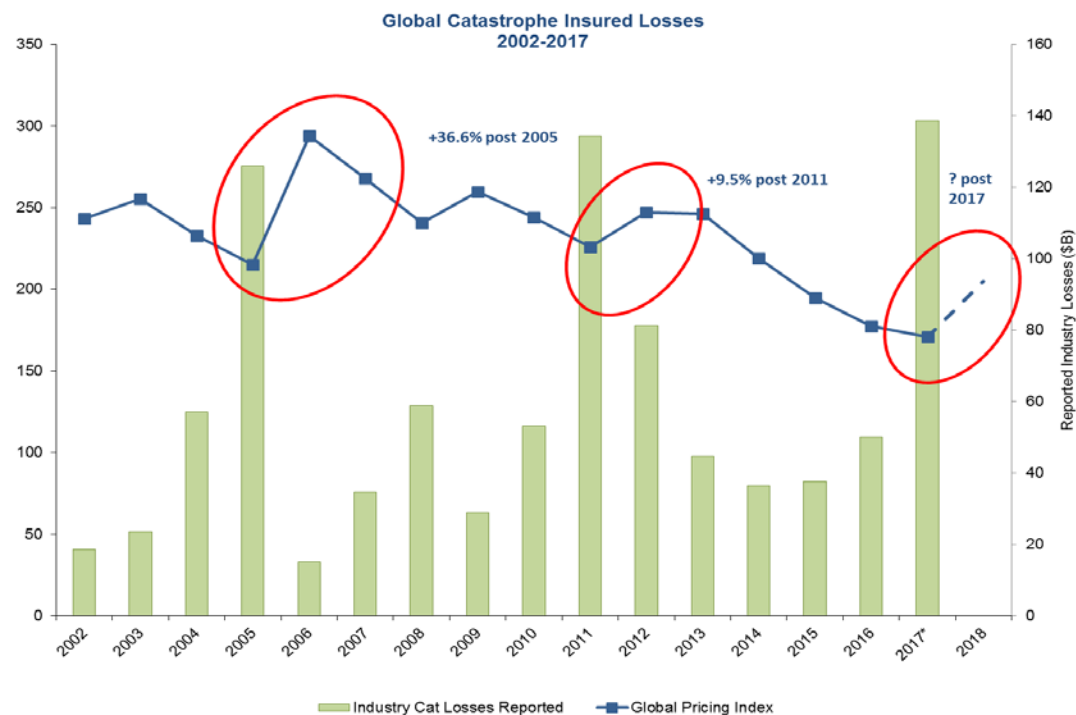

2017 Events Leading to Rate Increases

2017 was one of the most costly catastrophe loss years in industry history

- **Hurricane Harvey** (highest wind of 130 mph, insured loss of \$25-\$35 billion, largest auto loss in U.S. history and wettest tropical cyclone on record in the U.S.)
- **Hurricane Irma** (highest wind of 185 mph, insured loss of \$35-\$55 billion, largest Caribbean insurance loss in history)
- **Hurricane Maria** (highest wind of 175 mph, insured loss of \$15-\$30 billion, costliest Puerto Rico loss in history)
- Smaller events include Mexican earthquakes, Hurricane Nate and California Wildfires

Market pricing improved at January 1st renewals following these events

- 15% - 20% increases in impacted areas
- 3% - 5% increases in non-impacted areas
- Overall average risk adjusted prices increased 12%

Source: Statista 2017 and Guy Carpenter
*Estimated industry losses

Geographic Distribution of Premiums

Portfolio of risks globally diversified by over 1,400 underlying contracts*

(\$ in millions)	Year Ended December 31, 2017	
Worldwide ⁽¹⁾	\$34.0	73%
USA:		
Nationwide	\$3.4	7%
Florida	\$6.3	13%
Gulf Region	\$0.7	2%
California	\$0.3	1%
Mid-Atlantic Region	\$0.3	1%
Midwest region and other	\$0.3	1%
Northeast	\$0.3	1%
Worldwide, excluding U.S. ⁽²⁾	\$0.5	1%
Total net premiums written	\$46.1	100%

(1) “Worldwide” comprises reinsurance contracts that cover risks in more than one geographic area and do not specifically exclude the U.S.

(2) “Worldwide, excluding U.S.” comprises reinsurance contracts that cover risks in more than one geographic area but specifically exclude the U.S.

- BCRH maintains a diversified portfolio of global risks
- Successfully bound indemnity reinsurance contracts at January 1, 2018 with expected total premiums of \$27.8M
- Inforce portfolio as of January 1, 2018 consisted of 92.1% first event coverages compared to 76.6% as of June 1, 2017
 - Eliminated exposure in ILW’s and aggregate accounts given price movements post 2017 events

* Investors who invest in a single share of BCRH enjoy the benefit of investing in a share that is diversified by underlying investments of greater than 1,400 positions in catastrophe related insurance contracts, as at January 1, 2018.

Financial Highlights

Financial Results	2014	2015	2016	2017
<u>Production:</u>				
Gross Premiums Written <i>(in millions)</i>	\$45.0	\$38.6	\$43.2	\$46.1
Net Premiums Earned <i>(in millions)</i>	\$43.9	\$38.3	\$43.6	\$46.0
<u>Underwriting Results:</u>				
Loss Ratio	39.0%	6.9%	31.5%	171.6%
Expense Ratio	28.2%	38.4%	33.5%	29.7%
Combined Ratio	67.2%	45.3%	65.0%	201.3%
<u>Per Share Data:</u>				
Earnings per Share	\$1.72	\$2.36	\$1.63	(\$4.94)
Regular Dividends Declared	\$0.90	\$0.90	\$0.90	\$0.90
Special Dividends Declared*	\$0.66	\$1.24	\$0.59	\$0.00
Total Dividends Declared	\$1.56	\$2.14	\$1.49	\$0.90
Earnings Payout Ratio	90.4%	90.4%	90.6%	NM
Fully Converted Book Value Per Share	\$20.62	\$21.41	\$20.90	\$14.48
Growth in Book Value Per Share, Including Dividends Paid	8.7%	11.4%	7.6%	-23.6%

* For this exhibit, special dividends are included in the period to match underlying earnings that were generated to fund the dividend and not when they were ultimately paid.

- Full year 2017 results:
 - Experienced significant catastrophe losses related to Hurricanes Harvey, Irma and Maria and the California wildfires
 - Losses from these events were \$62.4 million net of reinsurance and reinstatement premiums
- Historically, strong results were achieved in BCRH's first three full years of operations
 - 8.8% Growth in Book Value Per Share inclusive of dividends paid for 2014 through 2016
 - Benign catastrophe losses contributed to strong earnings and book value growth
 - Returned in excess of 90.0% of distributable income through regular and special dividends

Risk Management: Single Event Loss Exposure Maintained Within Underwriting Guidelines

Projected Net Impact From Single Event Losses⁽¹⁾ at Specified Return Periods

	Net Impact ⁽²⁾ (millions)	Return Period ⁽³⁾	January 1, 2018 as a % of December 31, 2017 Shareholders' Equity	January 1, 2017 as a % of December 31, 2016 Shareholders' Equity
U.S. - Florida Hurricane	\$ 34	1 in 100 year	27%	29%
California Earthquake	\$ 24	1 in 250 year	19%	14%
Japan – Earthquake	\$ 20	1 in 250 year	16%	19%
U.S. - Gulf Hurricane	\$ 19	1 in 100 year	15%	9%
All other zones			less than 15%	less than 15%

(1) Our single event loss estimates represent snapshots as of January 1, 2018 and January 1, 2017. The composition of our in-force portfolio may change materially at any time due to the acceptance of new policies, losses incurred, the expiration of existing policies and changes in our ceded reinsurance and derivative protections.

(2) **Actual realized catastrophic losses could differ materially from our net loss estimates and our net loss estimates should not be considered as representative of the actual losses that we may incur in connection with any particular catastrophic event.** The net loss estimates above rely significantly on computer models created to simulate the effect of catastrophes on insured properties based upon data emanating from past catastrophic events. Since comprehensive data collection regarding insured losses from catastrophe events is a relatively recent development in the insurance industry, the data upon which catastrophe models is based is limited, which has the potential to introduce inaccuracies into estimates of losses from catastrophic events, in particular those that occur infrequently. In addition, catastrophe models are significantly influenced by management's assumptions regarding event characteristics, construction of insured property and the cost and duration of rebuilding after the catastrophe. For a listing of risks related to BCRH and its future performance, please see "Risk Factors" in BCRH's most recent Annual Report on Form 10-K.

(3) A "100-year" return period can also be referred to as the 1.0% occurrence exceedance probability ("OEP"), meaning there is a 1.0% chance in any given year that this level will be exceeded. A "250-year" return period can also be referred to as the 0.4% OEP, meaning there is a 0.4% chance in any given year that this level will be exceeded.

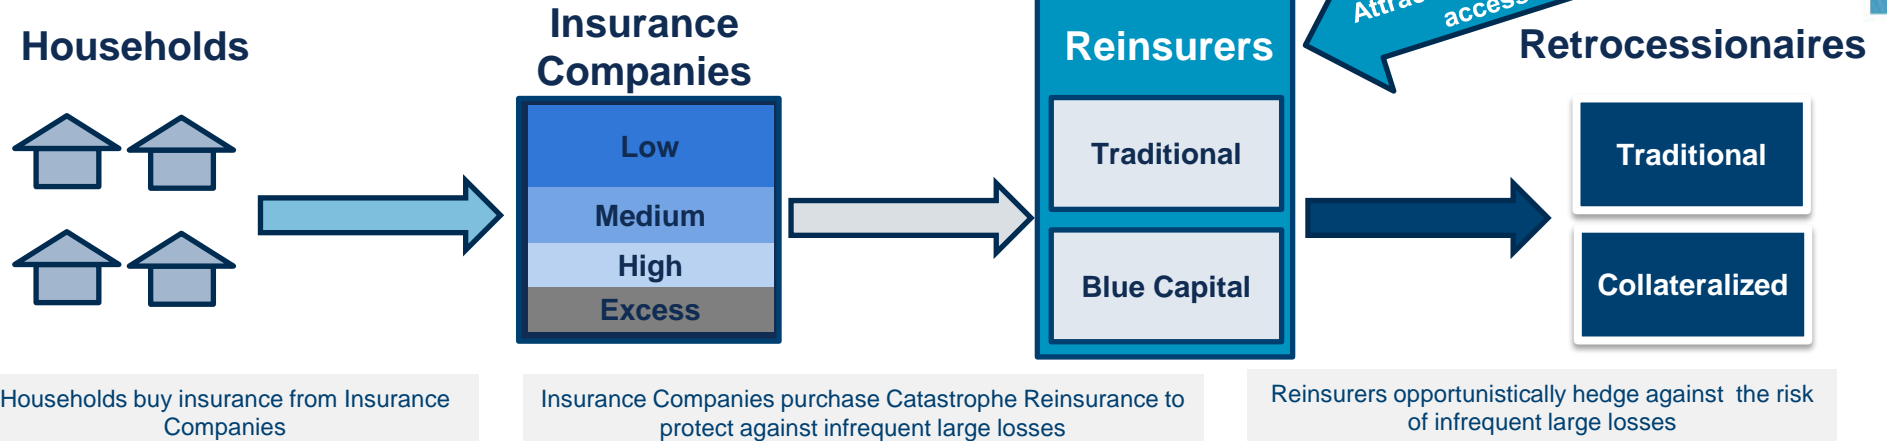

Conclusion

- BCRH offers an attractive return from direct investments in reinsurance contracts. Returns are largely uncorrelated to other financial market risks.
- BCRH benefits from relationship with Sompo International, a market recognized leading global specialty insurer and reinsurer
 - Provides access to greater than 90% of market of catastrophe risk opportunities which enhances diversification and risk selection
 - Sompo International expertise enables differentiated reinsurance risk selection and portfolio construction
- Close alignment of interest between Sompo International, BCRH and shareholders. Sompo International maintains 33% ownership position in BCRH.
- Market conditions improved at 1/1/2018 renewals which are expected to be sustained during the upcoming 6/1/2018 renewals which contain a greater concentration of 2017 loss impacted accounts

Appendix

Introduction to Reinsurance Risk Transfer

Risk Distribution Chain

Reinsurance Products

Catastrophe Bonds Bonds issued by an insurance company with funding tied to the company's losses from disasters, or acts of God. A loss exceeding a certain size triggers a reduction in the bond value or a change in the bond structure as loss payments are paid out of bond funds.

Collateralized Reinsurance A contract where a trust account is created at the inception of the contract term and funds the account in an amount equal to the contract limit (less certain deductions).

Industry Loss Warranty (ILW) An insurance or reinsurance contract in which coverage is triggered when the losses experienced by an industry exceed a specific threshold.

Reinsurance A contract under which a reinsurer agrees to pay specified types and amounts of underwriting loss incurred by an insurer or another reinsurer in return for a premium. Reinsurance serves to 'lay-off' risk. Reinsurance may be proportional or non-proportional and may take the form of a cover in respect of an individual risk exposure (see facultative risk) or cover in respect of multiple risk exposures (see treaty). Reinsurance accounts for more than half of Lloyd's total business.

Retrocession Reinsurance of a reinsurer by another reinsurer. It serves to reduce the risk of the company that is being reinsured.

Retrocessionaires The reinsurer under a retrocession.

Quota Share Reinsurance A reinsurance treaty which provides that the reassured shall cede to the reinsurer a specified percentage of all the premiums that it receives in respect of a given section or all of its underwriting account for a given period in return for which the reinsurer is obliged to pay the same percentage of any claims and specified expenses arising on the reinsured account.
